

Certified Protection Professional (CPP®)

Intensive Study Programme

12 day course

Why this course

The Certified Protection Professional (CPP®) credential provides demonstrable proof of knowledge and management skills in eight key domains of security. Those who earn the CPP® are ASIS board-certified in security management. The CPP® designation is one of the most widely recognised security management qualifications in the world, providing employers with proof of the holder's advanced knowledge of security management. Research from ASIS International consistently confirms that the CPP® enhances career prospects.

The examination is difficult to pass without guided preparation and this 2 week classroom programme is designed to help delegates prepare for the CPP® Certification exam. The first week teaches delegates how to navigate their way around the ASIS reference materials (POA Manual, Standards and Guidelines). The second week focuses on testing delegates, so they can see where their strengths and weaknesses lie. This allows targeted study in the weaker areas before sitting a mock exam with questions similar to those found in previous CPP® exams.

Who will benefit

The CPP® certification is designed for security managers and consultants who want an internationally recognized advanced-level credential in security management.

This 2 week classroom programme is ideal for those who do not have the time to follow the 4 month self-study programme or those whose learning style is better suited to a highly intensive course programme.

Course content

- Security Risk Analysis
- Security Management
- Security Personnel Management
- Business Principles
- Protecting at Risk Personnel
- Crime and Managing Internal Crime
- Background Screening and Integrity Testing
- Perimeter Security (Physical, Intrusion Detection and Lighting)
- Premises Security (Physical, Intrusion Detection, CCTV and Access Control)
- Special Storage Areas (Safe and Vaults)
- Emergency Management
- IT Security
- Protection of Sensitive Information
- Managing Investigations and Interviewing

In order to be successful, delegates will need to possess fast reading skills in English and evidence nine years in security management (seven with a degree) three of which must be in responsible charge of a security function.

This programme is intensive and requires full commitment to study both during and after class hours. There is guided self-study during the middle weekend, when the trainer is available for consultation.

Applying for the CPP® Certification Exam

Qualification is by computer-based examination which costs \$300 for ASIS members and \$450 for non-members. Application to sit the examination should be made directly through ASIS International via the ASIS website.

The examination is conducted by ASIS International at a number of Prometric test centres around the UK and internationally. Prospective candidates are responsible for checking their eligibility to sit the examination and for registering directly with ASIS International, as well as for booking their exam directly with their preferred Prometric test centre.

Venue

This course is held at one of our training venues in Oxford or Reading.
