

Crime Prevention & Security Design

5 Day Course (BTEC Level 5)

Why this course

This five day BTEC Level 5 accredited course provides an in-depth study of the theories of criminal motivation and behaviour, and the strategies that can be employed to reduce crime in commercial organisations, especially those strategies which design of security measures.

This course gives an understanding of the theories of criminal motivation and the main principles of crime causation, then progressing through to creating effective physical security and identifying procedural approaches to crime prevention. This course takes the form of lectures, workshops, discussions and exercises, during which delegates, syndicated into groups, will have the opportunity to solve typical security problems.

Who will benefit

The course will be of immediate benefit to business security specialists to provide them with the knowledge and confidence necessary to manage a successful business crime prevention operation.
