

Physical Security Professional (PSP®)

Intensive Study Programme

12 Day Course

Why this course

The Physical Security Professional (PSP®) credential provides proof of the holder's knowledge and experience in threat assessment and risk analysis; integrated physical security systems; and the appropriate identification, implementation, and ongoing evaluation of security measures. Those who earn the PSP® are ASIS board certified in physical security and the qualification enhances their in-company credibility and career prospects.

This 2 week classroom programme is designed to help delegates cram for the PSP® Certification exam. The first week is designed to familiarise delegates with the ASIS reference materials. The second week focuses on testing of each part of the ASIS Reference Set, so that delegates can see where their strengths and weaknesses lie. This allows targeted study in the weaker areas before sitting a mock exam with questions similar to those found in previous PSP® exams.

Who will benefit

The PSP® certification is ideal for security managers and consultants who want an internationally recognised advanced level credential in physical security management.

This 2 week classroom programme is designed for those who do not have the time to follow the 4 month self-study programme or those whose learning style is better suited to a highly intensive course programme.

Course content

- Security Risk Analysis
- Vulnerability Analysis
- Security Surveying
- Selecting Physical Security Technology
- Managing the Contractor Bid Process
- Overseeing the Installation of Physical Security Technology
- Security Project Management
- Perimeter Security (Physical, Intrusion Detection and Lighting)
- Premises Security (Physical, Intrusion Detection and Access Control)
- CCTV
- Special Storage Areas (Safes and Vaults)
- Security of High-Rise Buildings
- Business Continuity Management

This programme is intensive and requires full commitment to study both during and after class hours. There is guided self-study during the middle weekend, when the trainer is available for consultation

In order to succeed on this programme, delegates should have at least a basic understanding of security technology, and have fast reading skills in English. In order to sit the examination, delegates will need to evidence six years of progressive physical security experience (four if they have a degree).

Applying for the PSP® Certification Exam

Qualification is by computer-based examination which costs \$300 for ASIS members and \$450 for non-members. Application to sit the examination should be made directly through ASIS International via the ASIS website.

The examination is conducted by ASIS International at a number of Prometric test centres around the UK and internationally. Prospective candidates are responsible for checking their eligibility to sit the examination and for registering directly with ASIS International, as well as for booking their exam directly with their preferred Prometric test centre.

Venue

The classroom portion of this course is held at one of our training venues in Oxford or Reading.

Course Fees

£7415* (Dinner, Bed and Breakfast)

£6995* (Bed and Breakfast)

£4630** (Non-Residential)

* Fee is shown inclusive of VAT @ 20%, due to TOM Scheme

** Fee is shown excluding VAT, which will be added @ 20%

Dates

6th – 17th June 2016
