

Security Management Stage 1

10 Day Course

(Middlesex University Accredited QCF Level 7)

Why this course

This very popular and comprehensive programme has been successfully completed by hundreds of security managers from many of the world's most famous and most successful companies. It is designed for security managers, co-ordinators and their equivalents, who wish to gain a thorough understanding of how to manage security within a corporate environment. Equally suited for existing security managers and those newly appointed from police, military or business backgrounds.

This course is Skills for Security Accredited and forms the first part of the pathway towards the Middlesex University MSc Professional Practice in Corporate Security Management.

Delegates will be introduced to a range of risk management and security design tools to enhance their organisation's ability to protect its assets.

The course takes the form of lectures, workshops, exercises and makes extensive use of case studies. Delegates will also take part in a challenging security design project in which they will devise a security plan for a notional international company, with ambitious plans to expand. They will then present their solution, along with the budgetary implications to the Company Board.

Who will benefit

This course is designed for security managers, co-ordinators and their equivalents, who wish to gain a thorough understanding of how to manage security within a corporate environment.
