

# ARC Strategic Security Management Stage 3

Muscat, Sultanate of Oman

1<sup>st</sup> – 12<sup>th</sup> November 2020

## Security Management Programme

### Background

This comprehensive three-stage programme has been successfully completed by hundreds of security professionals from some of the world's most prestigious organisations.

It is designed for security managers, supervisors, and anyone else with responsibility for the security management function, whether in the public or private sector. The programme is suited to newly appointed security managers with a police or military background and employees who have been transferred from other departments.

Learners will be introduced to a range of risk management and security design tools to enhance their organisation's ability to protect its assets.

The programme comprises lectures, workshops, case studies and exercise scenarios, during which learners will complete challenging risk and security design projects that require development of strategy and mitigation measures. Recommendations, solutions and budgetary implications have to be justified to representatives of the 'executive team'.

This programme is Skills for Security certificated

## Who Will Benefit

This course is designed for those professionals operating at the strategic level of security management and requires a sound understanding of risk management theory and practice.

### **CAREER EXPERIENCE**

CNB Security Consultancy, Ltd., Multiple Locations World-Wide

**Lead Security Consultant, 2014 – Present**

Analyse and compose detailed reports of security survey findings for various entities in need of security services. Advise on numerous arenas including risk management, crisis aversion and turnaround, business continuity, and the integration and observation of security protocols. Train national and international security students on current methods.

Key Contributions:

- Single-handedly authored security courses in alignment with current standards and legislation.
- Served as the senior trainer of perpetuity and ARC to all B Tech Level III through Post-graduate students.

The London Clinic, London, UK

**Interim Head of Business Resilience, 2012 – 2013**

Evaluated existing security strategies and contracts for Closed-Circuit TV (CCTV) and Access Control to mitigate risk and reduce costs. Composed new Incident Management Plans as well as security policies and operations (SyOps) in compliance with ISO 27001. Coordinated and led crisis management team to ensure readiness in event of emergency and provided superior service to certify safety of high-profile patients including Royal Family members and celebrities.

Key Contributions:

- Recognized with a letter of appreciation from Royal Protection Team for outstanding performance through duration of the Duke of Edinburgh's visit as an in-patient.
- Blue-printed a new security control that introduced fire alarms and business management systems.
- Spearheaded two major investigations which successfully minimized risk and secured a major investment for business resilience.

Government of the United Kingdom, Southwest, England

**Principal Security Advisor, 2007 – 2012**

Counselled on best practices and designed security solutions. Directed diverse team of 33 members and all security measures including risk, business continuity, health and safety, information assurance, and IT security with operational budget of £2.4M. Guided all internal and complex external investigations leveraging worldwide connections. Functioned as Board Member for three organizations including the MoD Business Continuity Committee to guarantee compliance with BS25999 standards, the Principal Security Advisors Group to aid in the formulation of strategic security policies throughout worldwide MoD sites, and the Customer Advisory Group accountable for all National Security vetting processes. Devised a travel guide of best security practices and risk management documentation for reference.

Key Contributions:

- Earned commendation from CEO for outstanding service in 2009.
- Saved £220K in expenses within one year by evaluating and revamping security procedures and reduced data and security breaches by 93.04% over four years.
- Acted as the Deputy Crisis Manager Leader responsible for testing all Crisis Management Plans for efficiency.

- Designed and integrated a Known Consignor area which saved £55K per year and is now licensed by Department of Transportation as well as a transformational approach to business continuity which amplified service levels and was later adopted and implemented across the MoD.
- Constructed and deployed security and continuity strategies comprised of three systems which resulted in full compliance with all HMG security and IT policies by all Indian and Norwegian organizations.
- Conserved £154K per year by inspecting MoD managed guarding at central commercial site.
