

Free Webinar Event

Protecting Facilities Against Violent Intrusion

Date
23 February 2021

Times
EST: 10:00-11:30
GMT: 15:00-16:30
CET: 16:00-17:30
GST: 19:00-20:30
SGT: 23:00-00:30

On 6 January 2021, the public witnessed in shock as a mob of rioters overran the U.S. Capitol Building. And as investigations of security failures on Capitol Hill proceed, professionals around the World responsible for protecting facilities have begun reassessing their level of readiness for similar acts of aggression.

On Tuesday, 23 February 2021, the S2 Institute and Precept Management Consultancy will host a free 90-minute webinar on protecting facilities against violent intrusion attacks. Although the theme of this presentation focuses on events as witnessed at Capitol Hill, the measures explored in this webinar are universal to all facilities in managing risks of mob violence and armed assaults originating from outdoor locations.

The webinar will be presented using the Zoom video conferencing system.

Topics

Physical Security & Violent Intrusion Events | Lockdown Principles & Protective Design | Outdoor Attack Detection & Reporting | Facade Construction & Specification | Secure Entrance Design | Access Control Design & Lockdown Planning | Deployable Delay Measures | Safe Havens & Safe Rooms | Emergency Communications Infrastructure | Egress Design | Q&A
