

ARC Security Management

Dubai

17th – 21st October 2022

Objectives

This security management training course is an essential exploration of the key ideas, techniques and concerns at the heart of professional security management today.

Successful learners will leave with a BTEC Level 4 Award. This is an internationally-recognised qualification, supporting your career development and promotion opportunities. Past learners of this course have gone on to complete other qualifications to further their career, and to boost credibility in this competitive industry.

During the course, you will cover a comprehensive look at the responsibilities, resources and skills that are central to providing effective security management. From identifying issues, understanding theories about risk, and isolating causes and prevention of crime, this qualification in security

management is the ideal course for anyone wishing to develop their career in the security industry.

Assessment for this security management training course is based on completion of the course workbook, which is used to support a written assignment that is completed post-course. Because there is no exam to sit, you can take your time to consider the best way to complete the coursework.

You will receive support during the course, and our academic team can provide additional support should you need it after the training. Importantly, this means that when you sign up to train with us, we are with you for the whole journey, ensuring you receive the highest quality support and guidance.

SRF BTEC Level 4 Professional Award

Presenter Profile

Angus Darroch-Warren

Angus Darroch-Warren is Managing Director of the Linx International Group Limited, a role he took on after a police career in South Africa and employment as an independent security consultant. The Linx International Group provides security and risk management consultancy services, security management training and security systems training through its companies, PerpetuityARC Training and Tavcom Training.

A SABRE Registered Professional and Assessor, Angus advises on security, risk and crisis management issues and the development of security programmes, regularly conducting security risk assessments, threat and vulnerability analyses and the management of corporate investigations. These services are provided to international clients in a range of industries and sectors comprising oil and gas, metals, financial services, pharmaceuticals, healthcare, FMCG and construction.

Angus designs and develops security training programmes, delivers training internationally and has written and presented on various security related topics in a number of commercial and educational forums. In particular, he designed a BTEC Level 4 in Workplace Investigation and Interviewing. He is ASIS PSP certified and leads on the delivery of training programmes for the certification.

He has a Bachelor's degree in Economics and French and a MSc in Security Management from Loughborough University. His research project evaluated the effect of privacy laws on commercial sector investigations, while his dissertation analysed the potential impact of proposed regulation on the private investigator sector. Angus was the recipient of the 2010 Wilf Knight Award and a runner up in the 2011 Imbert Prize.

Angus is a Chartered Security Professional (CSyP), Registered Independent Security Consultant (RISC) SABRE Registered Professional, Fellow of the UK's Security Institute (FSyI) and former Board Member of the Syl.
