

Security Institute Certificate In Security Management - Online

BTEC Level 3

Introduction

This training course is proudly delivered in partnership with the UK's Security Institute and is now available for booking throughout the year so simply book your place, pay and get started.

The Security Institute Certificate in Security Management is an online security training course, providing you with an introduction to key ideas, techniques and issues central to professional security management. You will gain an understanding of policy, best practice and legislation associated with security management principles, including health and safety, asset protection and information security.

From discussing the formation of risk, to analysing potential causes and prevention of crime, this course is a must for those either new to their role, or experienced security professionals who perhaps haven't worked at an academic level for some time. This is an online training course made up of six modules, three of which are mandatory and three chosen from elective modules.

Who will benefit?

The course will benefit anyone seeking professional recognition and qualification within the security sector. The course is open to all those who operate within the private and public security sectors.

People who have previously taken the qualification include security managers, health and safety managers, police, fire service personnel and members of the armed services.

Core Modules
