

ASIS Certified Protection Professional® (CPP®) **- Online**

Introduction

We are proud to be an ASIS Preferred CPE Training Provider.

We deliver training to help you get the very best results when you sit your ASIS CPP exam.

The ASIS CPP® Board certification signifies knowledge and management skills in seven key domains. Through rigorous testing of the seven domains of security, the post-nominals give a true competitive advantage, enhancing career opportunities and performance.

This online CPP review course directs you to the relevant parts of the ASIS CPP material, testing your knowledge of the domains, and providing mock exams to demonstrate your areas of understanding. As long as you have an internet connection, you can take this training from anywhere in the world at your own pace.

The ASIS CPP® qualification enhances career opportunities by demonstrating management skills in seven key security domains. It is one of the most widely recognised security management qualifications in the world. CPP accreditation provides employers, colleagues and peers with professional assurance of the holder's advanced knowledge.

Who will benefit?

Experienced security professionals will benefit from the career-enhancing values that holding ASIS CPP brings. It is a Board certification, internationally-recognised and demonstrates ongoing commitment to the security industry.

Please ensure you meet the ASIS CPP eligibility criteria before you apply; full details can be found at www.asisonline.org.

How you'll learn: Online learning (self-study)

Upon registering your place, you will join the online learning platform which hosts the study materials. There are five modules, each relating to core content from the ASIS CPP Protection of Assets and Standards & Guidelines.

You will be directed to the relevant parts within the CPP materials, and then self-assessment exams will test your understanding of the material. You will submit mock-exams which are reviewed by the course tutor, who feeds back on areas to study in more detail.

Study materials

Please note that you will need to purchase your own copies of ASIS International's 'Protection of Assets' and 'Standards and Guidelines' bundles. These are available at: www.asisonline.org

About the exam

The CPP® exam is taken over 4 hours, with a maximum 225 multiple choice questions. Questions are based on the seven domains identified by certified protection professionals as the key categories of security management. The exam covers tasks, knowledge and skills in seven broad domains that have been identified by Certified Protection Professionals as the major areas in security management.

Please note that the exam fee is not included in this training package. You are responsible for booking your exam, and sourcing a copy of the ASIS CPP Protection of Assets and Standards & Guidelines.

Eligibility Criteria

Nine years of security work experience, with at least three of those years responsible for a security function. Or A bachelor's degree or higher and seven years of security work experience, with at least three of those years responsible for a security function.
