

Managing Security Surveys - Online

BTEC Level 4

Why this course?

Conducting a security survey is an essential skill for security managers.

This online course provides a step-by-step guide to the process of conducting an effective security survey, providing you with a template for conducting your own surveys. The course will show you how to identify the particular threats to your business, premises and staff, and how you can protect against them.

During the course, you will be guided through each stage involved in conducting a survey.

You will also learn how to use the security survey as part of your ongoing risk analysis and security strategy.

As part of this course, learners are given templates to undertake a security survey of a site of their choice, which will form the basis of the final assignment.

Who will benefit?

This BTEC Level 4 course will be of immediate benefit to anyone conducting or overseeing security surveys. By guiding you through the important stages from initial planning to final report, this course will enable you to quickly and efficiently assess your security strengths and weaknesses. It will equip you with the essential tools to maximise your protection whilst meeting the realistic constraints of your budget.

Core content

- When to conduct a security survey
