

Risk, Crisis and Disaster Management - Online

BTEC Level 4

Why this course?

In today's world it is essential that organisations recognise and prepare for potentially disastrous events. This starts with a true exploration of risk.

Whether fire, flooding, terrorism or other potentially devastating events, organisations need to recognise the risks and be prepared to handle both crises and disasters as part of an effective continuity strategy.

The aim of this course is to show you how to identify threats and prepare and plan effectively. The course will provide a broad spectrum of knowledge relating to risk, crisis and disaster management within organisations, including the composition and operation of the Crisis Management Team.

Who will benefit?

This online course will be of immediate benefit to those working as security managers or those seeking to make a career in security management with an inclination to crisis management. Designed for professionals by professionals, it is intended to introduce and develop security and risk management to the highest levels.

Core content

- The importance of risk management
- The risk culture
- Risk communications
- The business impact analysis (BIA)
- Business continuity planning
- The elements of crisis management
- Formation of the crisis management team (CMT)
